PRODUCT END-OF-SALE BULLETIN

Oracle (Sun) Server & Storage Platforms Moving to End-of-Sale

March Networks is proud to offer improved application server bundles and storage solutions to our customers. These bundles combine industry-leading server platforms from Oracle (formally Sun Microsystems®) with pre-installed VideoSphere Video Management System (VMS) server software and IP camera connection licenses. These changes were made based on our customers' feedback to address:

- The need for more internal storage in the application server, reducing rack footprint per customer
- The need to increase the amount of storage per server, reducing the total energy cost per customer
- A lower upfront cost, while improving the overall value of the solution
- Demand for a reduced number of Edge licenses in the bundle, along with the flexibility to add more licenses as required.

Due to chassis changes and the 750GB hard drives no longer being manufactured by the vendor, several storage platforms will be the first products going End-of-Sale (EOS). March Networks will be offering 1TB Hard Drives in the 12 Bay (RSAS-12-5T) storage chassis, increasing the amount of internal storage from 9TB to 12TB.

The three current application server bundles listed in Table 1 will also go EOS on August 27th. March Networks and Oracle continue to provide best-in-class solutions for our customers and will continue to offer competitive hardware products that meet the needs of our industry leading Video Management Systems.

When ordering storage configurations, please refer to the updated part numbers for these units, which will be reflected with pricing in the next release of the March Networks Price List. March Networks' will also continue to provide warranty support for product ordered prior to this notice. Items affected are located in Table 1, along with their part number, description and last date of sale.

If you have questions related to these changes, please call March Networks at the numbers listed on the last page of this bulletin, or contact your local March Networks sales representative.

Table 1: End-of-Sale Items and Last Date of Sale

Part Number	Description	Last Date of Sale
RSAS-12-4.5TB	Sun Storage J4200 Array, 12 Bay, 4.5TB (6x750GB) expandable, 2RU rack mount, redundant power supply	Immediately
RSAS-24-9T	Sun Storage J4400 Array, 24Bay, 9TB (12x750GB) expandable, 4RU rack mount, redundant power supply	Immediately
RSAS-48-36T	Sun Storage J4500 Array, 48Bay, 36TB (48x750GB) fully populated, 4RU rack mount, redundant power supply	Immediately
RSAS-DRV-750GB	Extra 750GB SAS Hard Drive for Use with Storage Servers	Immediately
RSAS-24-IOM	Extra SAS HBA I/O Module for the SUN J4400 Storage Array. Includes 0.5m cable	Immediately
VMS-AS-OFFC2	Application Server Bundle - Sun Firex2270 server, 1 TB internal storage, Windows 2008 Server OS, VMS 2.1 server software, 16 edge licenses, 1 year warranty, Supports up to 32 cameras	27 August 2010
VMS-AS-CORP2	Application Server Bundle - Sun Firex2270 server, expandable external storage, Windows 2008 Server OS, VMS 2.1 server software, 32 edge licenses, 1 year warranty, Supports up to 64cameras	27 August 2010
VMS-AS-ENTR2	Application Server Bundle - Sun Firex4170 server, expandable external storage, Windows 2008 Server OS, VMS 2.1 server software, 64 edge licenses, 1 year warranty, Supports up to 128 cameras	27 August 2010
RSAS-12-5TB	Sun Storage J4200 Array, 12 Bay, 5TB (5x1TB) expandable, 2RU rack mount, redundant power supply	24 September 2010
RNAS-48-48T	Sun Storage X4540 NAS Array 48TB (48x1TB) fully populated, 4RU rack mount, redundant power supply	01 September 2010

Table 2: Part Numbers and Availability

Part Number	Description	Availability
RSAS-12-5TB	Sun Storage J4200 Array, 12 Bay, 5TB (5x1TB) expandable, 2RU rack mount, redundant power supply	Available Until 24 September 2010
RNAS-48-48T	Sun Storage X4540 NAS Array 48TB (48x1TB) fully populated, 4RU rack mount, redundant power supply	Available Until 01 September 2010
RSAS-DRV-1TB	Extra 1TB SAS Hard Drive for Use with Storage and Servers	Immediately
RSAS-12-IOM	Extra SAS HBA I/O Module for the SUN J4200 Storage Array. Includes 0.5m cable	Immediately
VMS-AS-2TB	Application Server Bundle - SunFire X2270 M2 Server, 2TB internal storage, Windows 2008 R2 Server OS, VMS 2.1.1 Server Software, 16 Edge Licenses, 1 year warranty, supports up to 64 cameras	30 August 2010
VMS-AS-8TB	Application Server Bundle - SunFire X2270 M2 Server, 8TB internal storage, External Raid Controller for expandable storage, Windows 2008 R2 Server OS, VMS 2.1.1 Server Software, 16 Edge Licenses, 1 year warranty, supports up to 64 cameras	30 August 2010
VMS-AS-0TB	Application Server Bundle - SunFire X4170 M2 Server, expandable external storage, Windows 2008 R2 Server OS, 8 port SAS HBA, VMS 2.1.1 Server Software, 16 Edge Licenses, 1 year warranty, supports up to 128 cameras	30 August 2010
TBD	Application Server Bundle - SunFire X4270 M2 Server,12 bay, up to 24TB of internal storage, Windows 2008 R2 Server OS, VMS 2.1.1 Server Software, 16 Edge Licenses, 1 year warranty, supports up to 128 cameras	01 September 2010 Subject to change

About March Networks

March Networks® (TSX:MN) is a global provider of intelligent IP video solutions. For close to a decade, the company has helped some of the world's largest commercial and government organizations transition from traditional CCTV to networked video surveillance used for advanced security, loss prevention and risk mitigation. VideoSphere®, the company's enterprise-class video management portfolio, includes open-platform VMS software complemented by high-definition IP cameras, encoders, video analytics and recording platforms, as well as outstanding professional and managed services. March Networks systems are delivered through an extensive distribution and partner network and currently support over one million channels of video in more than 50 countries.
