

6708 Series Hybrid NVR

8-Channel Recording Platform

The **8-channel Hybrid NVR** from March Networks® delivers video that's always there when you need it, and the advanced tools that allow you to quickly find the evidence you need. Get your job done faster — from installation to investigation — with this appliance-based hybrid NVR as the backbone.

This recorder is ideal for customers seeking a high-performance video surveillance platform that supports up to eight cameras, offers intuitive software for identifying fraud and monitoring operations, and makes it easier and more cost-effective to transition to high-definition (HD) IP video. The enclosure is designed with smaller footprint stores and standalone kiosks in mind, but still with the redundancy of a two-drive system.

Key Benefits

- ▼ **Meets privacy guidelines.** Privacy protection features, such as privacy masking, operator access restrictions, and the ability to delete archived video clips, complies with video surveillance guidelines across Europe and the Middle East.
- ▼ **Embedded, Linux-based, and purpose-built.** Spend more time performing investigations and less time dealing with maintenance issues that can plague a PC-based recorder.
- ▼ **All camera licenses included.** No need to pay for separate channel licenses; benefit from a full-featured recording platform right out of the box.
- ▼ **Configurable recording policies.** Record video based on user-definable variables like schedule, motion, analytics, etc.
- ▼ **Real-time health monitoring.** Be alerted to camera, recorder and network issues within seconds.
- ▼ **Network policies for bandwidth protection.** Maximize overall system performance with features like bandwidth throttling, maximum retention settings, multi-sector archiving, and selective video recording.
- ▼ **Front panel QR code.** Use March Networks' free GURU Smartphone App to scan the recorder's QR code to check warranty status, get in-field diagnostics support, do on-site wireless provisioning, or even initiate an express RMA.
- ▼ **Powerful video management software.** With March Networks Command™ Recording Software and Command Enterprise Software, you'll be equipped with the features and tools you need to easily manage your video surveillance system, including innovative search tools, mass management, Windows® Active Directory integration, and health monitoring.

The recorder's small, tamper-proof enclosure is ideal for standalone kiosks or any location with space constraints, in a platform that complies with your region's privacy guidelines.
