# Increase your competitive advantage with intelligent video solutions

MARCH® networks

Operational insights to help your customers improve performance and profitability.

Analytics and Video-Based Business Intelligence Software

- Integrates HD video with business analytics, transaction data, RFID data and more

- Supports analytics including people counting, queue length, dwell time, license plate recognition and presence detection

- Enables lightning-fast reviews, investigation, comparison and trend analysis, with reports delivered automatically to your customer's inbox

- Provides valuable information on customer service, merchandising, operations, compliance and more

- Enables customers to proactively detect theft and fraud, and reduce investigation times by 50% or more
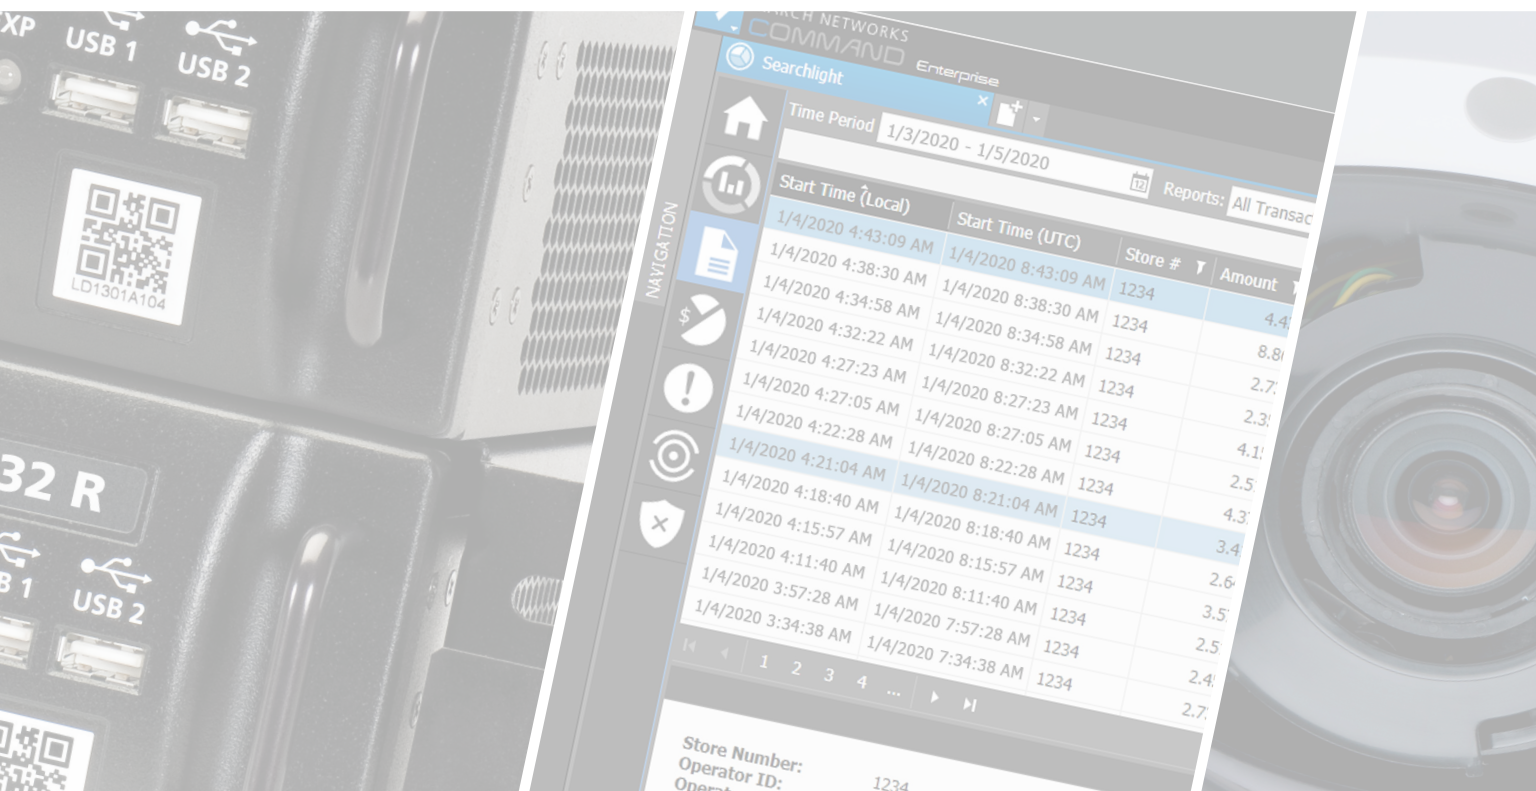

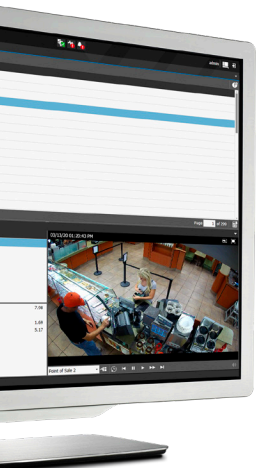

Reliable. Secure.
Easy to manage and service.

High Performance IP, Hybrid and HD Analog Video Recorders

- Support IP, HD analog and standard video on the same recording platform, or 100% IP
- Save time with field replaceable, user serviceable parts
- Unique docking station option lets you leave cables in place while servicing
- Customized, embedded Linux OS provides added reliability and security
- Fully licensed for all video channels — no software licenses required!
- Available in 64, 48, 32, 24, 16, 8 and 4-channel models, for fixed and mobile environments

Enterprise Video Management Software

- Runs on standard IT servers, hybrid NVRs or in a virtual environment
- Supports LDAP/Active Directory integration
- Enables centralized mass management of IP cameras and recorders
- Provides remote video access from any networked location, via client software or a free mobile app
- Delivers an intuitive client interface that can be tailored for different user groups
- Incorporates powerful investigation tools and case management
- Offers robust system health monitoring for proactive maintenance

High-Quality IP Camera Portfolio

- Purpose-built to handle challenging lighting conditions
- Provide crystal-clear video capture and internal recording
- March Networks models include fixed domes, PTZs, specialty and ATM cameras, plus bullet and mobile cameras
- 360° and 180° cameras from Oncam and March Networks
- A wide range of features, housings and mounts to choose from

Plus integration with hundreds of leading third-party cameras, access control and transaction systems, and fixed RFID readers.

GURU Smartphone Application

Tech support in the palm of your hand.

Created to help our certified partners save time and costs in the field, March Networks® GURU is an industry-first app that delivers mobile tech support on the go.

Just download GURU for free from the App Store or Google Play and use your smartphone or tablet to troubleshoot, run security and installation audits, search known issues, do express RMAs, check product warranty or shipment status, view third-party integrations, provision NVRs wirelessly, watch how-to video tutorials, and more.

GURU also works with the unique QR codes on March Networks products. Just a quick scan and you get product details instantly with no hassle.

**Here's to never searching for serial numbers again!**
