Smarter Video, Smarter Decisions

Two business intelligence tools to protect profits, optimize operations, and drive growth.

Searchlight Cloud—transform your video into actionable intelligence by integrating surveillance, POS, and operational data all in one platform:

- Resolve issues in seconds using synced video + POS data
- Prevent losses instantly with real-time alerts
- Benchmark locations to spot trends and protect margins
- Ensure compliance and monitor health & safety standards using video

AI Smart Search—like a search engine for your video, simply type or say commands to instantly find the video snapshots you need.

"SHOW ME WHEN GAS PUMP STATION
GARBAGE CANS ARE FULL"

Retrieve snapshots in seconds to save time, resolve issues faster, improve service, and streamline operations.
