

Smarter Security. Built for Dunkin'. Backed by March Networks.

ABOUT MARCH NETWORKS

March Networks® is the largest official Inspire Brands supplier of video surveillance solutions for the Dunkin' system. Since 2011, we've partnered with over 5,600 Dunkin' locations across 40+ U.S. states, seamlessly integrating our intelligent video surveillance and loss prevention solutions with Dunkin's POS systems to help drive profitability and operational success.

Turn your Dunkin' franchise into a smarter, more efficient operation with analytics-driven video surveillance.

March Networks technology goes beyond protection—it helps you run your business better.

Easily audit openings and closings, monitor labor and cash handling, verify product placement, and improve drive-thru efficiency. With high-definition video, smart analytics, and mobile access, you can make smarter, faster decisions anytime, anywhere.

Plus, every solution is backed by comprehensive maintenance, warranty, phone, and on-site support (truck rolls) to keep your system performing at its best.

Run a Smarter Dunkin' with AI Smart Search

AI Smart Search makes it effortless to find the image you need. Just type or speak a request—like “Show me back door activity at night” or “Find long drive-thru lines”—and get results in seconds.

It's as simple as a web search. Stop theft, speed up investigations, and keep your stores running smoothly with less effort.

Did You Know?

Your video system can do much more than monitor—it can help you grow. Here's how Dunkin' franchisees use March Networks to drive performance:

Transaction Reviews

Link video with POS data to detect fraud, resolve disputes, and verify promotions.

Operations Audits

Quickly review snapshots to monitor cleanliness, safety, and employee performance.

Business Analytics

Uncover customer trends, optimize drive-thru times, track KPIs, and improve overall efficiency.
